A reliable sterilization tape that provides immediate identification of processed items and also serves as a closure tape to seal sterilization packs. Chemical indicator strips change color when exposed to appropriate sterilization conditions.

The sterilization tapes are suitable for steam, ethylene oxide and hydrogen peroxide sterilization processes.

- Water-based and non-toxic chemical indicator is used.
- It adheres to woven, treated woven, non-woven, paper and paper/plastic wraps.
- The adhesive feature ensures that the winding material is safely packed and removed from the material in a clean/easy way.
- Compatible with ISO 11140-1.

Sterilization tape changes color when subjected to sterilization process. It is important to note that the presence of sterilization tape that has changed color on an item does not ensure that the product is sterile, the tape only shows if sterilization has been performed.

LIPNI JUOSTA SU EO, GARU ir be INDIKATORIAUS

- Stiprios fiksacijos
- Aiškus spalvos pasikeitimas
- Netoksiškas
- Be švino
- Atitinka ISO 11140-1 reikalavimus

Sterilizacijos sutvirtinimo juosta yra saugus pasirinkimas naudojant įvairias pakavimo medžiagas.

Indikatoriaus spalvos pasikeitimas yra tikslus ir aiškus. Parodo, ar paketas buvo paveiktas sterilizacijos proceso. Steristar gamina bei aprūpina lipniomis juostomis su garų, EO indikatoriais bei be indikatoriaus.

Kodai: SAT1950, EO1950, NPT1950

Išmatavimai: 19mm x 50 m

Pakuotė: 1 rulonas

Dėžėje 60 rulonų
